

In an annual survey, Texas A&M students reported several popular study spaces on campus. In the three years studied, over 50% of students indicated that they spent time studying in Evans Library (**Figure 2**). Evans Library proved to be more popular than its closest competitors, the MSC and Rudder.

**Figure 2: Popular Texas A&M Study Spots**

The survey did not ask students about popular off-campus study locations, so it is unclear if other area locations are even more popular.
